## Medication Reconciliation Post-Discharge

Members 18 years of age and older who were discharged from January 1- December 1 for whom medications were reconciled against the outpatient medical record on the date of discharge through 30 days after discharge (31 total). Medication reconciliation conducted by a prescribing practitioner, clinical pharmacist or registered nurse.

Submit codes to indicate the list of discharge medications were reconciled against the patient's outpatient medications:

## PLAN ALL-CAUSE READMISSION

This measure looks at members age 18 years of age and older who had an acute inpatient discharge on or between January 1 – December 1 that were followed by an unplanned acute readmission for any diagnosis within 30 day of discharge.

## To Improve HEDIS scores, ensure the following:

- 1. Make a follow-up appointment for the member within 48 hours of inpatient discharge
- 2. Provide needed services for the member, i.e. home healthcare, case management
- 3. Keep up-to-date with provider notifications via the provider analytics tool and alerts on member admission

## TRANSITIONS OF CARE

Members age 18 years of age and older who had each of the following during the measurement year. Four rates are reported separately.

- Notification of Inpatient Admission: Documented receipt of notification of inpatient admission on the day of admission or the following day.
- Receipt of Discharge Information: Documentation of receipt of discharge "information" on the day of discharge or the following day.
- At a minimum, documentation in the medical record for discharge information should include all of the following (e.g. a discharge summary):
  - The practitioner responsible for the member's care during the inpatient stay.
  - Procedures or treatment provider.
  - Diagnosis at discharge.
  - Current medication list (including medication allergies).
  - Testing results, or documentation of pending tests or no tests pending.
  - Instructions to the PCP or ongoing care provider for patient care.
