

Better health
for complex patients.

Better outcomes
for prescribers.

ExactCare provides **comprehensive medication management to help complex, chronic patients** overcome the challenges of polypharmacy, simplify complex daily medication routines and improve adherence.

Nearly **40% fewer readmissions** for patients on ExactCare service.

30% of clinical interventions ExactCare conducted in 2017 addressed **drug duplications**.

87% of patients say ExactCare **helps them better manage their health**.

Save Time. Improve Effectiveness.

ExactCare helps improve coordination of care among patients, prescribers and caregivers.

Prescribers benefit from:

- More complete and accurate medication profiles for complex patients.
- Complete medication reconciliation with all prescribers.
- Updated medication profiles for patients on service.
- Potential medication issues identified and recommended interventions.
- Assistance to coordinate patient refill appointments.
- Refill synchronization and a streamlined refill process.
- Support to manage prior authorization requirements or formulary rejections.

ExactCare support for patients includes: an in-home medication assessment, adherence packaging, home delivery, electronic medication reminders, and monthly medication review.

Working with ExactCare

When your patient begins service with ExactCare, we will contact you to begin the medication reconciliation process and request new prescriptions. This helps ensure a smooth transition for patients and a more rapid refill synchronization process.

This reduces the stress on you of managing multiple refills throughout the year and frees up your staff's time for other activities.

Referring a Patient to ExactCare

ExactCare is ideal for patients experiencing:

- Multiple chronic conditions
- Polypharmacy, typically with 8+ medications
- Frequent and complex dosing regimens
- History of poor adherence
- Multiple prescribers

To refer a patient, please **call 1-877-355-7225** or visit **www.exactcarepharmacy.com**.

Sending Prescriptions to ExactCare

Ways to send prescriptions to ExactCare:

E-prescribing: Search for ExactCare by ZIP code.

Phone: 1-877-355-7225, Option #3

Fax: 1-855-355-3480

Mail: 8333 Rockside Road, Valley View, OH 44125

ExactCare is licensed to receive prescriptions for controlled substances via e-prescribing system. When required by state law, a hard copy of a controlled substance prescription may need to be mailed to the pharmacy.

Improving Patient Satisfaction

93% of patients agree ExactCare makes it **easier to manage their medications.**

87% of patients rated ExactCare service as **"Above Average" or "Excellent."**

Results reflect feedback gathered through a 2017 survey of ExactCare patients.
