Providers and Authorization

Primary Care Physicians (PCP)

PCPs serve as a “medical home” and provide the following:

-  Sufficient facilities and personnel
-  Covered services as needed
 - 24-hours a day, 365 days a year
-  Coordination of medical services and specialist referrals
-  Members with after-hours accessibility using one of the following methods:
 - Answering service
 - Call center system connecting to a live person
 - Recording directing member to a covering practitioner
 - Live individual who will contact a PCP

Utilization Management

-  Authorization must be obtained prior to the delivery of certain elective and scheduled services
-  The preferred method for submitting authorization requests is through the Secure Web Portal at: provider.mhsindiana.com

Service Type	Time Frame
Elective/scheduled admissions	Required five business days prior to the scheduled admit date
Emergent inpatient admissions	Notification required within one business day
Emergency room and post stabilization	Notification requested within one business day

Prior Authorizations

 Prior authorization is required for services such as:

- Inpatient admissions, including observation
- Home health services
- Ancillary services
- Radiology – MRI, MRA, PET, CT
- Pain management programs
- Outpatient therapy and rehab (OT/PT/ST)
- Transplants
- Surgeries
- Durable Medical Equipment (DME)
- Part B drugs

 Use the “Pre-Auth Needed Tool” at allwell.mhsindiana.com to check all services

Out-of-Network Coverage

 Plan authorization is required for out-of-network services, except:

- Emergency care
- Urgently needed care when the network provider is not available (usually due to out-of-area)
- Kidney dialysis at Medicare-certified dialysis center when temporarily out of the service area
- ***Please note that the Allwell PPO plan DOES include out-of-network benefits at a higher cost share to the member.***

Medical Necessity Determination

-  When medical necessity cannot be established, a peer to peer conversation is offered
-  Denial letters will be sent to the member and provider
-  The clinical basis for the denial will be indicated
-  Medical Necessity Appeals must be initiated within 30 days of the denial to be considered. Please note, this is different than a claim appeal request.
-  Member appeal rights will be fully explained

Model of Care

(DSNP Only)

Model of Care (DSNP Only)

 The Model of Care is Allwell's plan for delivering our integrated care management program for members with special needs

 The goals of Model of Care are:

- Improve access to medical, mental health, and social services
- Improve access to affordable care
- Improve coordination of care through an identified point of contact
- Improve transitions of care across healthcare settings and providers
- Improve access to preventive health services
- Assure appropriate utilization of services
- Assure cost-effective service delivery
- Improve beneficiary health outcomes

Model of Care (DSNP Only)

Model of Care elements are:

-  Description of the SNP Population
-  Care Coordination and Care Transitions Protocol
-  Provider Network
-  Quality Measurement

Model of Care Process (DSNP Only)

-  Every dual member is evaluated with a comprehensive Health Risk Assessment (HRA) within 90 days of enrollment, and at minimum annually, or more frequently with any significant change in condition or transition of care
-  The HRA collects information about the member's medical, psychosocial, cognitive and functional needs, and medical and behavioral health history
-  Members are then triaged to the appropriate Allwell Case Management Program for follow up

Model of Care Process (DSNP Only)

-  Allwell values our partnership with our physicians and providers
-  The Model of Care requires all of us to work together to benefit our members by:
 - Enhanced communication between members, physicians, providers, and Allwell
 - Interdisciplinary approach to the member's special needs
 - Comprehensive coordination with all care partners
 - Support for the member's preferences in the Model of Care
 - Reinforcement of the member's connection with their medical home

Medicare STAR Ratings

Medicare Star Ratings

What Are CMS Star Ratings?

-  The Centers for Medicare & Medicaid Services (CMS) uses a five-star quality rating system to measure Medicare beneficiaries' experience with their health plans and the health care system
-  The ratings are posted on the CMS consumer website, [medicare.gov](https://www.medicare.gov), to give beneficiaries help in choosing an MA and MA-PD plan offered in their area
-  The Star Rating program is designed to promote improvement in quality and recognize primary care providers for demonstrating an increase in performance measures over a defined period of time

Medicare Star Ratings

CMS's Star Rating Program is based on measures in 9 Different domains:

Part C

1. Staying healthy: screenings, tests and vaccines
2. Managing chronic (long-term) conditions
3. Member experience with the health plan
4. Member complaints, problems getting services and improvement in the health plan's performance
5. Health plan customer service

Part D

1. Drug Plan Customer Service
2. Member Complaints and Changes in the Drug Plan's Performance
3. Member Experience with the Drug Plan
4. Drug Safety and Accuracy of Drug Pricing

How Can Providers Impact & Improve Star Ratings?

-  Continue to encourage patients to obtain preventive screenings annually or as recommended
-  Manage chronic conditions such as hypertension and diabetes including medication adherence
-  Continue to talk to your patients and document interventions regarding topics such as fall prevention, bladder control, and the importance of physical activity and emotional health and wellbeing
-  Create office practices to identify non-compliant patients at the time of their appointment
-  Follow-up with patients regarding their test results

How Can Providers Impact & Improve Star Ratings?

-  Submit complete and correct encounters/claims with appropriate codes and properly document medical chart for all members, including availability of medical records for chart abstractions
-  Review the gap in care files listing members with open gaps, which is available on our secure portal
-  Review medication and follow up with members within 14 days post hospitalization
-  Identify opportunities for you or your office to have an impact on your patient's health and well-being
-  Make appointments available to patients and reduce wait times

Patient Analytics

Patient Analytics

What is Patient Analytics?

 Patient Analytics is a web-based patient care platform that uses claims data to create a detailed patient- and population-level reporting.

What Does Patient Analytics Do?

 Within Patient Analytics, each patient has a detailed clinical profile. Patients with the most care gaps are identified allowing providers to take a proactive approach to managed care.

Key Benefits

-  **Population Health:** Providers are able to manage member's information using patient registries. The information can easily be accessed online and many elements can be printed.
-  **Medical History** – Patient Analytics contains up to 24 months of medical, pharmacy, and lab claims.
-  **Increased Visibility** – Primary Care Physicians (PCPs) will have access to claims history submitted by other providers.
-  **Improved Outcomes:** Patient Analytics helps providers improve patient care, performance, outcomes and adherence to quality measures.

Patients Tab

- 1. Tabs:** Allows the providers to choose between the Patients information and Reports.
- 2. Logout Button:** For security purposes, logout to protect patient information. Not shown, in upper right hand corner.
- 3. Search:** Allows providers to search by the patient's name, Medicaid, Medicare or Marketplace ID number.
- 4. Filters and Export Features:** Allows users to view all patients or filter by multiple criteria. The users will also have the ability to create a PDF document or export a detailed patient profile.

The screenshot displays the 'Patients' tab interface. At the top, there are tabs for 'Patients' and 'Reports'. Below the tabs, there is a search bar with the text 'Patients by Name or Medicaid ID' and a dropdown arrow. To the right of the search bar are buttons for 'View All Patients', 'Filter Patients', 'Create PDF', and 'Export'. Below the search bar, it says 'All Patients | Search Results: 3089'. The main area contains a table with the following columns: Member Number, Member Name, Member Address, Age_Gender_DOB, Member Phone, High Priority Care Opportunities, Risk Score, IP Probability Score, IP Stays in last 30 days, ER Visits within 90 Days, SubGroup, and Phy. The table shows several rows of patient data. A 'Manage Filters' dialog box is open in the foreground, showing a 'Filter Patients By' dropdown set to 'Disease & Condition'. Below this, there is a list of medical conditions with checkboxes, including Cancer, Cardiology, Chemical Dependency, Congenital, Dermatology, Endocrinology, Gastroenterology, General Utilization and Complications, Gynecology, Hematology, Hepatology, High Cost Chronic Conditions, Infectious Diseases, and Neonatology. The dialog box has 'Submit', 'Reset', and 'Close' buttons.

-  **High Priority Care Opportunities:** Displays a count of care opportunities deemed to be of the highest importance.
-  **Risk Score:** Identifies the likelihood that the patient will incur cost and services in the next 12 months when compared to an average patient. An average patient has a health of 1.0. Higher values indicate the patient is more likely to need services in the future.
-  **IP Probability:** A percentage indicating the likelihood that a patient will have one or more inpatient confinements in the next 12 months.
-  **Inpatient Stays in the Last 30 Days:** A metric that captures the number of distinct inpatient hospitalizations in the last 30 days based on processed claims.
-  **Emergency Room Visits within 90 Days:** A metric that shows the number of distinct emergency room visits within 90 days based on processed claims.
-  **Subgroup:** Medicaid, Medicare, or Marketplace.
-  **Physician:** Displays the provider's name and credentials.

Patient Profile

1. **Member Demographics:** Displays information about the member.
2. **All Care Opportunities:** The default landing page for patient details. Displays care opportunities or measures that indicate if a patient has or has not received treatment for a health condition.
3. **Diagnosis:** Shows primary and secondary diagnoses from claims data.
4. **Procedures:** Shows patient procedures associated with primary and secondary diagnoses.
5. **Medications:** Displays a list of medications prescribed to the patient.
6. **Lab/Observational:** Shows lab values, interpretations, and trends.
7. **Care Team:** Allows users to view the patient's providers. Providers are labeled as Managing Doctor or Other Doctor.

The screenshot displays the mhs Patient Profile interface. At the top, it shows the mhs logo and the user is logged in as 'SI'. Below the logo, there are tabs for 'Patients' and 'Reports'. A search bar is present with the text 'Patients by Name or Medicaid ID'. The member information is displayed in a grid format:

Claims Filing Timelines

 Medicare Advantage Claims are to be mailed to the following billing address:

Allwell from MHS

P.O. Box 3060

Farmington, MO 63640-3822

 Participating providers have **180 days** from the date of service to submit a timely claim

 All requests for reconsideration or claim disputes must be received within **180 days** from the original date of notification of payment or denial

Claims Payment

-  A clean claim is received in a nationally accepted format in compliance with standard coding guidelines, and requires no further information, adjustment, or alteration for payment
-  A claim will be paid or denied with an Explanation of Payment (EOP) mailed to the provider who submitted the original claim
-  Providers may NOT bill members for services when the provider fails to obtain authorization and the claim is denied
-  Dual-eligible members are protected by law from balance billing for Medicare Parts A and B services. This includes deductibles, coinsurance, and copayments.
-  Providers may not balance bill members for any differential

Coding Auditing & Editing

 Allwell uses code editing software based on a variety of edits:

- American Medical Association (AMA)
- Specialty society guidance
- Clinical consultants
- Centers for Medicare & Medicaid Services (CMS)
- National Correct Coding Initiative (NCCI)

 Software audits for coding inaccuracies such as:

- Unbundling
- Upcoding
- Invalid codes

Claims Reconsideration & Disputes

 A claim dispute is to be used only when a provider has received an unsatisfactory response to a request for reconsideration

 Submit reconsiderations or disputes to:

Allwell from MHS

Attn: Reconsiderations

P. O. Box 4000

Farmington, MO 63640-4000

Meaningful Use – Electronic Medical Records

Meaningful Use

-  EHR/EMR allows healthcare professionals to provide patient information electronically instead of using paper records.
-  Electronic Health Records/Electronic Medical Records (EHR/EMR) can provide many benefits, including:
 - Complete and accurate information
 - Better access to information
 - Patient empowerment

Advance Directives

Advance Medical Directives

-  An advance directive will assist the Primary Care Provider to understand the member's wishes about their health care in the event they become unable to make decisions on their own behalf. Examples include:
- Living Will
 - Health Care Power of Attorney
 - “Do Not Resuscitate” Orders
-  Member's medical records must be documented to indicate whether an advance directive has been executed
-  Providers must also educate staff on issues concerning advance directives and must maintain written policies that address the rights of members to make decisions about medical care

Fraud, Waste, and Abuse

Fraud, Waste, and Abuse

Allwell follows the four parallel strategies of the Medicare and Medicaid programs to prevent, detect, report, and correct fraud, waste, and abuse:

-  Preventing fraud through effective enrollment and education of physicians, providers, suppliers, and beneficiaries
-  Detection through data analytics and medical records review
-  Reporting any identified or investigated violations to the appropriate partners, including contractors, the NBI-MEDIC and federal and state law enforcement agencies, such as the Office of Inspector General (OIG), Federal Bureau of Investigation (FBI), Department of Justice (DOJ) and Medicaid Fraud Control Unit (MFCU)
-  Correcting fraud, waste or abuse by applying fair and firm enforcement policies, such as pre-payment review, retrospective review, and corrective action plan

Fraud, Waste, and Abuse

 Allwell performs front and back end audits to ensure compliance with billing regulations

 Most common errors include:

- Use of Incorrect billing code
- Not following the service authorization
- Procedure code not being consistent with provided service
- Excessive use of units not authorized by the case manager
- Lending of insurance card

 Benefits of stopping fraud, waste, and abuse:

- Improves patient care
- Helps save dollars and identify recoupments
- Decreases wasteful medical expenses

Fraud, Waste, and Abuse

 Allwell expects all its providers, contractors, and subcontractors to comply with applicable laws and regulations, including, but not limited to the following:

- Federal and State False Claims Act
- Qui Tam Provision (Whistleblower)
- Anti-Kickback Statute
- Physician Self-Referral Law (Stark Law)
- Health Insurance Portability and Accountability Act (HIPAA)
- Social Security Act (SSI)
- US Criminal Codes

Fraud, Waste, and Abuse

Effective January 1, 2016:

-  First-Tier, Downstream, and Related Entities (FDR), as well as delegated entities, will be required to complete training via the Medicare Learning Network (MLN) website
-  The trainings must be completed by each individual provider/practitioner within the group rather than one person representing the group collectively
-  The updated regulation requires all applicable entities (providers, practitioners, administrators) to complete the training within 90 days of contracting or becoming a delegated entity and annually thereafter
-  Once training is complete, each applicable entity will need to complete the certificate(s) of completion or attestation through the CMS MLN and provide a copy to the health plan

Medicare Reporting

 Potential fraud, waste, or abuse reporting may be called to our anonymous and confidential hotline at 1-866-685-8664 or by contacting the Compliance Officer at 1-866-796-0530 or by email to ComplianceN@centene.com

- Medicare's Fraud Hotline: 1-866-685-8664

CMS Mandatory Trainings

CMS Mandatory Trainings

 All contracted providers, contractors, and subcontractors are required to complete three required trainings:

- Model of Care (MOC): Within 30 days of joining Allwell and annually thereafter (DSNP only)
- General Compliance (Compliance): Within 90 days of joining Allwell and annually thereafter
- Fraud, Waste, and Abuse (FWA): Within 90 days of joining Allwell and annually thereafter

Model of Care Training Requirements*

 Model of Care training is a CMS requirement for newly contracted Medicare Providers within 30 days of execution of contract.

 Model of Care training must be completed annually by each participating Provider.

 The Model of Care training and attestation information is available on:

MLN Provider Compliance

Official Information Health Care Professionals Can Trust

Fast Fact

Medical review contractors, such as the Comprehensive Error Rate Testing (CERT) program, continue to find errors for missing or inadequate signatures on progress notes, office notes, and orders for services and supplies.

Electronic medical records and ordering systems are accepted by CMS if documentation received is otherwise in compliance with CMS record keeping requirements. With electronic systems, CMS review contractors may request a copy of a protocol, policy or procedure that describes how electronic health records are signed and dated in order to verify that the documentation has been electronically signed by the ordering/treating professional. Providers need a system and software products that are protected against modification.

For more information on signature requirements, refer to [Pub. 100-06 Chapter 3, Section 3.3.2.4 - Signature Requirements](#). E-Prescribing must follow specific requirements; see Section 3.3.2.4 F. Please also visit the [CERT Outreach & Education Task Forces web page](#).

The Medicare Learning Network® (MLN) Provider Compliance page contains educational products that inform health care professionals on how to avoid common billing errors and other improper activities when dealing with various CMS Programs. CMS' claim review program's overall goal is to reduce improper payment error by identifying and addressing coverage and coding billing errors. Since 1996, CMS has implemented several initiatives: to prevent improper payments before a claim is processed; and to identify, and recoup improper payments after the claim is processed.

The Downloads section contains MLN products, MLN Matters® Articles, and the "Archive of Medicare Quarterly Provider Compliance Newsletters" which have been designed to provide education on common billing errors and other improper activities. These lists, as well as other information in the Downloads and Related Links section, are updated as new products and articles are developed and existing products and articles are revised.

If you would like to contact the MLN, please email us at MLN@cms.hhs.gov.
