This is a claims based program – members need to be assessed during the program year by their PCP along with a claim submitted to support the provider's assessment.
-  Appointment Agendas serve as a valuable tool that provides offices with both insight into historical diagnosis data for providers to use to assist in assessing their members to ensure all member conditions are assessed at least once per year.
-  Providers earn Bonus payments for proactively coordinating preventive medicine and thoroughly assessing all of their patients current conditions in an effort to improve health and provide appropriate clinical quality of care.

Provider Incentive

% of Appointment Agendas Completed/Paid	Bonus Amt per Paid Appointment Agenda
<50%	\$100
>50 to <80%	\$200

-  The ratings are posted on the CMS consumer website, [medicare.gov](https://www.medicare.gov), to give beneficiaries help in choosing an MA and MA-PD plan offered in their area
-  The Star Rating program is designed to promote improvement in quality and recognize primary care providers for demonstrating an increase in performance measures over a defined period of time

- Living Will
- Health Care Power of Attorney
- “Do Not Resuscitate” Orders

 Member's medical records must be documented to indicate whether an advance directive has been executed

Allwell follows the four parallel strategies of the Medicare and Medicaid programs to prevent, detect, report, and correct fraud, waste, and abuse:

-  Preventing fraud through effective enrollment and education of physicians, providers, suppliers, and beneficiaries

-  Reporting any identified or investigated violations to the appropriate partners, including contractors, the NBI-MEDIC and federal and state law enforcement agencies, such as the Office of Inspector General (OIG), Federal Bureau of Investigation (FBI), Department of Justice (DOJ) and Medicaid Fraud Control Unit (MFCU)
-  Correcting fraud, waste or abuse by applying fair and firm enforcement policies, such as pre-payment review, retrospective review, and corrective action plan

 Most common errors include:

- Use of Incorrect billing code
- Not following the service authorization
