

Your Online Member Account Just Got Even Better!

MHS wants you to get the most from your health insurance. That's why we've made improvements to your online member account. Now it's easier for you to use and view your account wherever you are — on a computer or your smartphone!

Check out these new features:

Logging In Is Easier Than Ever!

We've made it much simpler to access your account. Now, all you need to register is:

- The last four digits of your social security number and date of birth
or
- Your member ID number (found on your ID card)

Introducing the New Digital ID Card

You show your ID card when you see the doctor* and use your coverage. Now, there's **no more waiting** for your card (or a replacement) to come in the mail. You can get a **digital version** of your card on your member account any time:

- It's easy to download.
- View it on your smartphone:
 - Android: download it to your camera roll
 - iPhone: download it to your mobile wallet
- You can also view it through your account or print a copy.

And don't forget what else you can do with your account, including:

- Check your eligibility
- Change your Primary Medical Provider (PMP)
- Find a provider
- Check your My Health Pays™ reward balance, and more!

With these improvements, your member account is easier to use — and it's a great way to manage your coverage!
